HWPS1UG

Print over the Internet
Fast Wireless Printing!
Compatible with most printers

PACKAGE CONTENTS:

- One USB Wireless-G Print Server
- Quick Installation Guide
- One Setup Disk
- A/C Power Adapter

Print over the Internet/Intranet to your home or office networked printer!

The Hawking HWPS1UG Wireless USB Print Server is a powerful and convenient tool to connect your USB printers to your existing wireless 802.11b or 802.11g wireless network. Through its enhanced functionality, the HWPS1UG can support a USB printer on either a wired or wireless 802.11b or 802.11g network.

The Hawking HWPS1UG combined with the Internet Printing Protocol (IPP) lets you easily connect to any printer and print documents by specifying the print server's IP address. With IPP technology, printing over a WAN or the Internet becomes much easier. You can send a print job to a printer in another country just as easily as sending a print job to your home or office printer. IPP eliminates the need for fax communications between offices. Simply print an original document through the HWPS1UG's IPP capabilities and send it from one office to another. The print quality from IPP printing is equal to that of a document printed from your local office. With the HWPS1UG, your printer become a fully functional networked print station.

System Requirements:

- Windows 95/98/2000/NT/ME/XP, NetWare, Mac OS X **, UNIX or LINUX
- 10Base-T Ethernet or 100Base-TX Fast Ethernet network or 802.11b/g network
- USB Printer

1-Port USB 802.11g Wireless-G Print Server

READY, NETWORK & GO! It's easy to install, it's easy to use!

Step 1 - Connect It!

Connect your printer to the HWPS1UG's USB printer port. Connect to an existing wireless network or Ethernet network via the RJ-45 Port. The HWPS1UG uses a 10/100M auto-sensing Ethernet port so you don't have to worry about what speed your network is currently using and is backwards compatible with the 802.11b wireless standard.

Step 2 - Install the Drivers and Utilities

Insert the setup CD into your computers' drive and run the setup program. Configuring your HWPS1UG is easy. You can use the Windows based configuration utility or configure the HWPS1UG via any web browser.

Step 3 - "Add" it!

Simply run the Add Printer wizard and specify that you are printing to a network printer. For Internet printing, enter the printer's URL or IP address.

Now you can enjoy fast Network printing from anywhere and from any application!

SPECIFICATIONS:

Interface
· 10/100M RJ-45 x 1 (Auto-MDIX)
· USB 1.1
· Supports IEEE 802.11g /b Wireless LAN

Network Protocol Support
· IPX/SPX, TCP/IP, IPP, DHCP, LPR, SMP, SNMP, Telnet, Raw Printing, Novell NetWare, Windows Server-Based Printing, and AppleTalk protocols

Network Operation Systems Support
· Windows 95/98/98SE/ME/2000/NT/XP
· NetWare 3.x and above
· Mac OS X (Supports Postscript Printers Only)
· Unix and Linux

Encryption
· 64/128 Bit WEP

Memory
· 2 MB Flash
· 16 MB SDRAM

Power
· 5V DC, 2A Linear Power Adaptor

Operating Environment
· Temp: 10~40C
· Humid: 10~90%

Dimensions
· 25H X 55W X 75D mm

Certification
· FCC Class B
· C-Tick
· CE

WIRELESS NETWORK DIAGRAM:

FEATURES:

10/100Mbps auto-sensing port 802.11b/g Wireless	Allows you to attach the HWPS1UG to a 10Base-T or 100Base-TX wired network or a 802.11b or 802.11g Wireless network without the need for a dedicated PC print server.
Multiple servers and multiple protocols support	Capability to print from anywhere, from any computer and from any application.
Quick and Easy Installation	Includes easy Setup Disk and Quick Installation Guide. Instantly adjust the HWPS1UG's settings to your ideal printing environment.

HAWKING PRODUCT INFORMATION:

HPS1P	10/100M Parallel Print Server
HPS3P	3 Parallel Port 10/100M Print Server
HPS1U	10/100 USB Print Server
HWPS12U	2-Port USB + 1 Parallel Port Wireless-G Print Server
HMPS1U	1-Port USB Print Server for Multifunction Printers
